

It is with continued appreciation that we acknowledge the tireless efforts of our team at East Longmeadow Skilled Nursing Center. We are in awe of their unwavering compassion and commitment to exceptional care for our residents. They are our heroes and we want to express our heartfelt gratitude for everything they do to make life better for our residents. At the same time, we recognize these efforts come at great personal sacrifice to our team. Today the entire team of East Longmeadow Skilled Nursing Center finds itself in mourning at the passing of a beloved colleague due to the Corona virus. This colleague was at the center of the fight against this insidious virus along with their colleagues here at East Longmeadow Skilled Nursing Center.

We are honored to have worked alongside this remarkable and kindhearted caregiver. As we continue to fight on the front lines of this pandemic we do so in memory, and in honor, of our treasured colleague whom we will miss beyond measure.

The support and encouragement of our families and residents are instrumental in the work we do each day and we extend our thanks to them as well.
